

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my personal testimony to this letter."—Miss FLO KELLY, 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

NEXT THRIFT SUNDAY.

Churches Will Co-operate in Furthering Sale of Thrift Stamps.

Next Sunday will be Thrift Sunday. Throughout New England and the rest of the country churches of every denomination will co-operate with the savings division of the treasury department in further perpetuating the lessons of sane saving, wise spending and safe investment. "Thrift" will be the text of the pastors, June 22 is set aside to aid in the national thrift campaign.

A message from Secretary Glass of the treasury department, setting forth the reasons why the government is fostering the spirit of thrift as a permanent American characteristic, will be received by each congregation and read from the pulpit.

In a letter to the pastors of all denominations, Harold Braddock, national director of the savings division, states the need of assistance in this great movement for peace-time patriotism. It reads in part:

"We are hoping that you will impress upon the members of the organizations connected with your church the desirability of careful saving for some worthy object. It would seem that, in the organizations which are desirous of saving for this purpose, would be to their interest to be enrolled as government savings societies. The savings and thrift stamp securities offered by the government are so safe and so accessible to the investor of such small amounts that we feel that they should be well adapted to the needs of any church organization. We also feel that if the members of these organizations begin investing their funds in government securities it will aid the members to feel that they have a more direct stake and interest in their government. It will make them more active and intelligent citizens."

Norwich University Distinguished College.

Every year since the classification of distinguished colleges was first made by the war department, Norwich university has been so classified, and this year is no exception. The following extract from the war department bulletin speaks for itself:

"Distinguished colleges and honor schools for the year 1919: Based upon reports of officers detailed for the purpose of making the annual inspection of the military department of education institutions at which officers of the army are detailed as professors of military science and tactics, the following named institutions are announced as the distinguished colleges and the honor schools respectively, as contemplated by paragraph 130, compilation of orders, 1881, 1915, as changed:

Agricultural and mechanical college of Texas, college station, Texas.
Cornell university, Ithaca, N. Y.
Michigan agricultural college, West Lansing, Mich.
Norwich university, Northfield, Vt.
Oregon agricultural college, Corvallis, Ore.
Pennsylvania military college, Chester, Pa.
St. John's college, Annapolis, Md.
The Citadel, Charleston, S. C.
University of California, Berkeley, Cal.
University of Florida, Gainesville, Fla.
Va. Ag. & Mech. college & Poly. Inst., Blacksburg, Va.
Virginia military institute, Lexington, Va.

Norwich university is one of the two schools which has always been on this list since the qualification was first made. A great deal of the credit for the standing this year is due to the hard work of the two military officers stationed here; namely, Col. Frank Tompkins, late of the 301st infantry and Major Arthur M. Edwards, U. S. army, retired.

KNOX DEBATES HIS RESOLUTION

Separate League from the Treaty and Consider It Alone, He Urges

MONROE DOCTRINE OBLITERATED BY IT

Senate Galleries Overflowing During His Address, and Many Outside Doors

Washington, June 18.—Senator Knox opened debate yesterday in the Senate on his resolution proposing separation of the covenant of the league of nations from the treaty with Germany. In the midst of discussion of the agricultural appropriation bill the senator delivered a prepared address which promised to precipitate a bitter fight.

Senator Knox told the Senate his resolution did not declare either for or against league, that it proposed "merely and solely that the Senate advise and consent to the treaty 'which shall bring us peace,' and reserve for future consideration other portions of the document proposing the creation of the league."

The former secretary of state replied to charges that the Republicans are making a partisan issue of the league and argued that more time should be allowed the American people to consider it.

Senator Knox declared the Monroe doctrine provision inserted in the revised covenant of the league will mean the termination of that doctrine.

"It is hard to speak calmly of such a perversion as this," said Senator Knox. "It is hard to conceive of any man transacting in Americanism lending his sanction to such a monstrosity. Never before has the Monroe doctrine been a mere measure of spineless pacifism. It has until now been a strong means of self-protection and self-preservation. 'It was aimed to keep monarchy from this hemisphere; kings, princes and emperors were to have no place on this side of the world. But under the new doctrine, if Mexico should peacefully agree to allow to Japan a strip of her western territory, if Guatemala should make an alliance with Great Britain, or Brazil with Germany, or Argentina with Italy, or if they should grant to them regions or strips of territory or concessions or zones of influence, how could we say that a 'regional understanding' for securing the maintenance of peace' had been violated? Would not the answer be, no hostile activity has occurred, none is contemplated, and none will occur unless you yourself, America, undertake or threaten, and if we did threaten them, no matter how great the menace to our own existence they might ultimately prove, we should merely bring us within the restraining hand of the whole league itself."

"The Monroe doctrine, in its covenant form, is a sanction and an invitation to colonization by monarchies (one of the precise things to avoid which the Monroe doctrine was declared) for in the great emancipated brotherhood which the league professes to set up, what brother can accuse his fellow of so ignominious a thing as a design upon the power and integrity of his own dominion—a thing made holy by the league itself."

Mr. Knox' address, large lines standing outside the doors.

WILL REPLY TO KNOX.

Senator McCumber Gives Notice of His Intention.

Washington, D. C., June 18.—More debate on the league of nations was in store in the Senate to-day.

Although appropriations constituted business technically under consideration, Senator McCumber of North Dakota, a Republican member of the foreign relations committee, had given notice of his intention to speak in support of the league and it was thought likely the address would develop a general discussion.

Senator McCumber was prepared to reply to arguments presented yesterday by Senator Knox, Republican, of Pennsylvania, who pleaded against accepting the league until the country had more opportunity to study it. The debate thus developing is expected to occupy the Senate a part of virtually every day until final action probably many weeks hence, on ratification of the treaty.

Senator Knox probably will make no effort to bring up until Friday his resolution designed to serve notice that the Senate opposes acceptance of the league covenant as now dovetailed with the peace terms. Either Friday or Saturday supporters of the resolution expect to try for a test vote to show the exact strength of the league opposition.

A Mistake Somewhere.

At an evening party a smart young man was introduced to a young lady, and after remark about the weather, he said gallantly: "And have I really the pleasure of meeting the beautiful Miss Smith whose praises are being sounded by everybody?"

"Oh, no," replied the lady. "The beautiful Miss Smith to whom you refer is a cousin of mine."

"Oh, that's it. Well, I thought there must be a mistake somewhere," said the gallant youth.—Boston Transcript.

Resinol

would help your poor complexion

Does a poor complexion stand between you and popularity—good times—success? Resinol Ointment and Resinol Soap do not work miracles, but they do make red, rough, pimply skins, clearer, fresher, and more attractive. Use them regularly, for a few days and see how your complexion improves. Sold by all druggists.

ASSERTS HE HAS ABSOLUTE CURE FOR SPANISH INFLUENZA

New York Doctor Says Autotherapeutic Treatment Also Will Cure Pneumonia, Catarrh and Stop Any Cough Except That from Tuberculosis.

New York, June 18.—Influenza and pneumonia are no more to be feared than a boil on the back of your neck, according to Dr. Charles H. Duncan, one of the founders of the Volunteer hospital, who, in an address yesterday before the convention of the Allied Medical Associations of America, described his method of combating Spanish influenza by means of "immunizing a patient to his own poison." Upon 246 patients ill with pneumonia and influenza last winter, Dr. Duncan said, he had used the treatment without a single fatality or any complications.

"Briefly," the physician said, "take one drachm of mucus from the infected area and pasteurize it in one ounce of filtered water, where it remains several hours. One cubic centimetre of this toxine, injected subcutaneously, will effect a spontaneous cure of Spanish influenza, pneumonia, catarrh, or any similar localized infection. It will stop any cough, except tuberculosis, inside of 24 hours."

Dr. Duncan said he had been using the method, which he calls "autotherapy," for about 10 years and that it is now widely accepted by the leading schools of medicine although not indorsed by the American Medical association.

NEWBURY

Next Sabbath morning Children's day will be observed in the Congregational church. The exercises will be very interesting.

Charles H. Bayley of Boston is in town and for the past week has been busy putting up street signs. Hale's store is now located at the intersection of Main and Chapel streets, while Miss Eliza Ross can be found at No. 1 Pulaski avenue. Mr. Gately's shoe emporium is at No. 2 Cross street. Charles R. Taggart lives now on Montebello road. Paul Andrews holds out at No. 3 School street, and Ruth Kechem and the rest of the aristocracy live on upper Main street. Dr. Pion can be found at the junction of Chapel and School. Mrs. Annie Temple (the manufacturer of good doughnuts) can be reached at the head of Elm street. If any runaway couple wishes to get tied up in a hurry, they can find Rev. H. S. Ives ready for instant action at one block below the library, 401 Main street. Dr. Darling can be found, when he is not chasing his old cow and wondering "Why in—his automobile does not run," at 403 Main, directly opposite the library. Charles Dodge, Damon Johnson, Richard Darling and all the rest of the good people live at the upper end of Oxbow road. For further information call on M. C. Knight at the town clerk's office, a few rods north of the fountain.

Miss Anna Smith, a former popular teacher of Newbury high, was in town this week and attended the graduation exercises.

Mrs. Horace Bailey left last Friday morning to join her husband at Glen Falls, N. Y., for a trip through the Adirondacks.

Harvey Knight is home on a short vacation.

Mrs. W. S. Jenne is in town visiting friends.

Harvey White and wife of Lyndonville motored down Sunday and called on his father, L. W. White.

Mr. and Mrs. Neal Holton are the happy parents of a daughter, born last week.

Mrs. F. E. Kimball attended the Bland-Glover wedding at Bath last Saturday.

The baccalaureate sermon was preached by Rev. Henry S. Ives in the Congregational church last Sunday evening. A large audience was present. Mr. Ives was assisted by Rev. O. W. Brock.

Mrs. Lawrie, Miss Keyes and Mr. and Mrs. Ives are enjoying a motor trip this week and will cover the Mohawk trail.

MORETOWN

Mrs. J. W. Bates returned Saturday from a week's visit at her home in Richmond.

F. H. Sawyer, M. R. Child and T. J. Ferris were in Barre Thursday evening to attend a meeting of the I. O. O. F.

Mrs. W. A. Kingsbury resumed work at L. Wilcox & Son's store Monday, after a several days' absence because of illness.

Corp. Herbert Crapo has returned to Montpelier after a visit with his sister, Mrs. John McCarty.

Mr. and Mrs. S. E. Atkins were in Barre Friday evening.

Mrs. Laura Weir returned Saturday from a week's visit with her daughter, Mrs. George Thomas, in Middlesex.

Roy Sanderson and Miss Ella Somerville of Burlington were guests at W. A. Kingsbury's Sunday.

Albert Goldsmith of Burlington was at A. H. Booth's over the week end. Graduating exercises and prize speaking will be held at town hall Thursday evening, June 19. Everyone cordially invited.

Mr. and Mrs. G. H. Sleeper and Mrs. Emily Merrill were in Burlington Sunday to visit Miss Ella Merrill at the hospital.

Mr. and Mrs. D. K. Richardson were in Montpelier Thursday evening.

Private Ford Bulkeley has received his discharge from Camp Dix and is visiting his parents, Mr. and Mrs. F. H. Bulkeley.

TRANSFER BRAZILIANS AT SEA

Following the Disabling of the French Cruiser Jeanne D'Arc

NO SERIOUS TROUBLE WAS INDICATED

Pres-Elect Pessoa of Brazil Taken on U. S. Battleship Arkansas

Washington, D. C., June 18.—A wireless message to the navy department early to-day announced that the French cruiser Jeanne D'Arc had been disabled at sea and that the transport Imperator had taken off Dr. Pessoa, president of Brazil, and his party, who were en route to the United States from Lisbon. The message was sent by Admiral Benson, who is returning home from France on the battleship Arkansas, with which ship the Imperator communicated.

Admiral Benson gave no details other than that the Jeanne D'Arc engines became disabled yesterday about 3 o'clock, Greenwich time, and that three hours later the Imperator came up and took off the Brazilians. The position of the vessel at the time of the transfer was not given. The Imperator, which is bringing troops home from France, is expected to reach New York to-morrow morning. So far as was known here there were no passengers on the Jeanne D'Arc other than the Brazilian president-elect and his party.

The fact that the Imperator did not stand by the disabled cruiser and that no mention was made of assistance being required is taken here to indicate the French warship is in no serious danger. It is believed she will make her own repairs and that the transfer of the passengers to the American transport was simply to avoid delay.

DAMAGE BY LIGHTNING.

Saturday's and Sunday's Storms Caused Loss in Many Places.

During the severe thunder storm Sunday morning, eight cows valued at \$1,000 were struck by lightning and killed on the farm of John Elmer in Addison and eight sheep on the farm of Lee Hemmings in Bridport were also killed by lightning. Five cows were killed on the farm of Charles Gale, living in the southern part of Middlebury, by coming in contact with a live wire of the Vermont Marble company's power line which runs from Huntington Falls to Proctor. It is not known how the wire became loosened from the pole, but it is thought by lightning. The loss is \$1,000.

Ten head of cattle in a herd belonging to Walter B. Sweet, of St. Johnsbury were killed by lightning Saturday night. The loss amounted to over \$1,000, which was covered by insurance.

The engine house at the Sheldon quarry in South Poultney was struck by lightning Saturday morning, totally destroying all the machinery. The engine house was owned by the E. C. Sheldon Slate company of Granville, N. Y., and the damage was about \$5,000, partly covered by insurance.

During the thunder shower Saturday morning, six cows and one bull belonging to Peter Sweeney of New Haven were struck and killed by lightning.

Charles Niles, a resident of Brandon and a student at the University of Vermont, narrowly escaped death Saturday when a bolt of lightning passed within a few feet of him, knocking him unconscious. He was visiting at E. E. Wright's farm just east of Brandon for the week end. At about 10:30 o'clock one of the worst electric storms of the season occurred. The young man was sitting on the porch watching the electrical display, when a bolt of lightning came between him and a large collie dog, crouching on the ground just in front of him. He was rendered unconscious by the flash and the dog was unable to walk for several hours. There was no damage to the house or out buildings.

The Anti-British Phobia.

However vulnerable to criticism the league of nations may be, the attack upon it as a promoter of British imperial interests is the silliest imaginable. The idea of a league did not originate in Great Britain and the British people as a whole never seemed to show marked interest in it.

Lord Robert Cecil was well within the truth in saying at a public meeting last week that Britain, "perhaps, has less need of the league than any other nation. Her European position is relatively stronger than ever it has been in her history. Her fleet is unbeaten and more powerful than before the war. Her army is larger and better trained than ever, and even on the economic side she is in better case than those who before the war were described as her rivals." It is an anti-British phobia that makes some senators see in the league a British intrigue to dominate the world.—Springfield Republican.

Envious. Immune from Prohibition's ban is he who scrubs our duds. When we go dry our laundryman Can still procure his "suds."

WINNING OUT AGAINST HANDICAP

"If You Have Any More Like Him, Send Them Along."

Washington, D. C., June 18.—Evidence that disabled men are taking vocational training under the supervision of the federal board for vocational education accumulates daily in the offices of the board. The dean of a far western college for example writes in praising the industry and application of one of the board's students placed for training in his institution and adds "If you have any more like him, send them along." This boy had a spinal injury that paralyzed both legs. His disability is rated at 100 per cent, but he will, nevertheless, soon be ready to fill efficiently a position as accountant. The federal board has thousands more like him.

Another case is that of a western boy who lost an eye in the service. He has taken an eight-week course in tractor and gas engines, and has been placed in a shop for supplementary training. After a few weeks the manager of the plant said to him, "Boy, I like the way you are taking hold here. You will get a \$40 bonus check for this month."

Any displaced soldiers interested to learn what Uncle Sam will do for him should write to the branch office of the federal board for vocational education in his district, or to the federal board for vocational education at 200 New Jersey avenue, Washington, D. C.

KILLED BY CARBOLIC ACID.

Mrs. Agnes Durant of Burlington Was Weary of Life.

Burlington, June 18.—Mrs. Agnes Durant of 93 Grant street died yesterday at the Fanny Allen hospital, where she was removed Monday after taking a large dose of carbollic acid with suicidal intent.

Early Monday afternoon Mrs. Durant, who was alone at her home, drank several ounces of the deadly fluid and then lay down on her bed in great pain. Later as her suffering increased she called in neighbors to her assistance and Dr. J. H. Dodds and Miss Basie Crosby, the assistant district nurse, promptly responded to their call. Everything possible was done for her restoration, but shortly before 3 o'clock she lapsed into unconsciousness in which condition she remained until the end.

Mrs. Durant is survived by two small children, a boy of four and a girl of two years. Her husband is reported to have departed for parts unknown about two years ago and since that time the young mother has put up a brave fight against poverty and disease. She grew weary of the struggle and the burden of life proving too heavy she sought release in death from her troubles. It is supposed that Mrs. Durant was afflicted with tuberculosis.

SUADAH TEMPLE REPRESENTED.

At D. O. K. K. Ceremonial Held in Boston and Vicinity.

Boston, June 18.—After having "crossed the hot sands Monday night," as one of their banners proclaimed, about five hundred members of New England temples of the Dramatic Order of the Knights of Khorassan, Knights of Pythias, marched through the streets yesterday preliminary to their field day at Nantasket beach. The parade formed in Essex street, and proceeded through Boylston, Tremont, School, Washington, Milk and Broad streets to Rowes' wharf, where the "Dokies" boarded the steamship for the trip to Nantasket.

The members of the order wore blue frocks, and carried flags of red, white and blue. At the head of the line were about 35 service men in uniform, in cluding members of the army and navy and one kiltie. The soldier members were the guests of honor. Harvey T. Pond, imperial representative, was marshal. Temples represented in line included Abou Ben Adhem temple of Boston, Hira temple of New Britain, Conn., Suadah temple of Barre, Vt., Asurabad temple of Manchester, N. H., El Karun temple of Providence, R. I., El Maina temple of Portland, Me., and Gaza temple of Springfield.

Woman Threatens Suit Against Druggist Because He Sold Her Substitute For Nuxated Iron

Case Is Brought To Attention of Physicians Who Warn Public

See That Ordinary Metallic Iron Preparations Cannot Possibly Give The Same Strength Power and Endurance

As Organic Iron—Nuxated Iron.

With the threat to sue her druggist because he sold her a substitute for genuine Nuxated Iron, the tonic, strength and blood-builder, one woman has set in motion a wave of indignation over the country against a practice which offers such countless dangers to the health and welfare of the public. This woman claims that instead of obtaining increased strength and improved health as she had with the true Nuxated Iron, she was seriously upset and in fact became ill as a result of using the substitute. Such instances as these have led physicians mentioned below to emphasize that health officials and doctors everywhere should caution the public against accepting substitutes for Nuxated Iron. Those who feel the need of a strength and blood-builder should go to their family doctors and obtain a prescription calling for organic iron—Nuxated Iron—and present this to their druggist so that there may be no question about obtaining the proper article. But if they do not wish to go to the trouble of getting a prescription for Nuxated Iron then they should be sure to look on the label and see that the words NUXATED IRON are printed thereon.

There are thousands of people taking iron who do not obtain the vital energy, strength and endurance which they seek simply because they have taken the wrong form of iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength and see how much you have gained.

Caution: Beware. The widespread circulation of the above information has been urged by Dr. James Francis Sullivan, formerly physician of Bellevue Hospital, New York, and the Westchester County Hospital; Dr. Ferdinand King, New York physician and medical examiner; and Dr. H. B. Baker, former physician and surgeon of Mount Sinai Hospital, New York. Dr. H. B. Baker formerly physician in the Bellevue Hospital and a Medical Examiner, and others, so that the public may be informed on this subject and protected from the use of metallic iron under the disguise that it is Nuxated Iron or at least something as good as Nuxated Iron. Nuxated Iron, it is a secret remedy but one which is well known to druggists. Unlike the iron compounds now produced it is easily assimilated and does not injure the system, make them black, nor upset the stomach. The manufacturers guarantee pureness and entirely satisfactory results in every instance or they will refund your money. It is dispensable in this city by all good druggists.

Iron Where It's Cool

Out on the porch or near a window where it's cool is the place to iron in the summertime. You can iron anywhere you wish—wherever there is a breeze—if you

Own An Electric Iron

Don't fuss with old sad irons and a hot stove in hot weather. Make things as cool and easy for yourself as you can. If your home is wired for Electricity, by all means avail yourself of the many superior advantages of the Electric Iron.
